Let me explain that silver which is mainly due to the monetary estrange-

In Oriental countries silver will still employ relation about. Congresses had been summoned, Chinese Imperial Maritime Costoms for 1893 now measured in gold, silver is worth less than Me. N. ville Lubbook presided, and to show the falling off of Ludian trade with half of the gold it formarly equalled. There is which can be obtained in Oriental countries. Mack .y. Sire D. Barbour, Sir W W. Hunter. crosse in the Indo-China trade been compensated At the equivalent in silver of fivepence or six-Sir F. Young, Sir J. Havan Edwards, Sir A. for by some expansion in British trade with pence per day of gold money, there are millions l'herefore, unless our mouetary law is amended or unless British labour is prepared to scoops a from the Registrar-Goueral," and the summoness Government of India). Hon. Duncan willies in the gold price of silver, are rapidly extending large reduction of wages, British industrial trades. their products will be supersuded by the estabthe lishment of industries in sulver-standard connwith which our trade is beset not only the people of the British islands but the inhabitants of every British colony are vitally interested. Without the remanetisation of silver to its former function of money there appears no prospect of a return of prosperity or even relief to the prevailing widespread depression. The rehabilitation of silver in the Western world, and its restoration to its former position as a remen and the British public were in great measure brought australia and New Zealand to a position cognised standard of value concurrently with world-wide standard of value which would possess

the maximum of stability. THE DISCUSTION. Mr. Leslie Probyn said the keynote of Mr. Whitehead's argument was that the relative values of gold and silver had given under encouragament to producers in ailvor-neing complaint at the expense of producers in gold-using constries. He (the speaker) admitted the great evils which arosa from the fluotnations in the relative values of the money of different countries. They made question sufficiently. All the wealth of the perilons position of British labour as affected by banks and traders, and on the enormous trade a gamble ruther than a legitimate enterprise, and in some cases the fall in the gold rated in money, and not in commodities. In his In support of this formidable arraignment of and the Far East, while the Government of value of silver temporarily encouraged product opinion an enormous injury had been done to our present monetary system underlying the India has also been adversely affected. China then in silver countries, helped in fact to start British commerce and industry during the last shove summary of subjects, he began by showing and Japan, for the time being, require to pay new industries just in the same way as industries twenty years by the fall in the gold value of that seconding to the Board of Trade returns, much higher prices for Indian groods than the were temporarily featured by protective duties silver. our imports for 1891 amounted to £435,000,000, real cost, plue a responsible profit to the pro- and bounties, but in the long run prices of all whereas for 1:94 they only amounted to droer if Indian manufacturers, merchants, and commodities would find their proper level in the In the House of Commons on the 14th all keepers can be traced. AN IRISH INCIDENT. It would be indeed strange if the history of this invigorating pastime had provided no anecdote worthy of relating, and the following Puyuan, a large market town in this pre- incident, I think, may be accepted as genuine feoture, has just become the scene of a contest " In Irohand it has always been a favourite and between the claims of foreigners and native almost national pastime, and parishes, frequently opposition. An isnocent patch of ground, one counties, contend against each other, the whole li from the town, on which a native Christian available male strength on each side turning out siready lived, was purchased by missionaries and in nid of their respective parties. The venue of native Christians at Sinchang nine miles away, these matches was frequently the Plicon Park and wholly through a native. Things went on in I ablin, and the Lord-Lieutenant and suite quietly until the country constable-for money's honoured and encouraged the game with their sake—lagan to make trouble. The ground afore- presence. On one memorable occasion a long said, like some other lots we have heard of could and desperate conflict was waged between at least raise an agitation. The unsuspecting the two provinces of Leinster and Connaught middlemen, simple-minded countrymen, were with even success, nutil a Connaught man, nearly scared out of their wits at first onelaught. catching the bull on his stick, ran The agitation grew till one day the two ohiel with it, pursued by his opponents, to the officials in the place came with their retinue and Viceregal carriage, where, fluding himself butly in boots to the place. They landed and first called pressed, he dashed it through the windows, and together all concerned. They thus called to ac. diving under the extringe, baffled his pursuers, count the native Christian. "Don't you know but recovered it on the other side, as he se amthis is a foreign doctrine and all they want is our bled up, and carried it to victory." After such a land? They pullout people's eyesandon their body, feat as this, we can. I think, rest assured that they carry medicine to bewitch prople," and the Connaught. " bhove," were triumphant on much other such like talk, and from the officials that occasion. What a splendid opportunity the too. They said to the native Christian that he parrator of this yarn missed in newlecting to inhad no business selling to the foreigners, that if traduce a dive through the windows after the he had gone to them they would have given him hall instead of under the carriage. It would have been so much more telling. However, I suppose a strict regard for accuracy must be held accountable, although the temptation must,

it seems to he, have been very strong.

AN INTERNATIONAL SHOUTING MATCH. Not for many/years now have we been privileged to witness a test of strength between the cruck marks nea of Eugland and America. but there appears some probability of a match being ratified between a well-known North of On YOKOHAMA.-England show and an American who some years ago supprised the whole of the sporting world | On Manila.with his wondrous foats with the gun. This was "Dr" w. F. Carver, who came over to England in 1878, and made friends everywhere. not only by reason of his skill with the guo, Sovereigns, Bank's Bhying Rate,.....\$9.65 but by his modest, neassaming dem apour, GULD LEAF, 100 fine, per tael ..........50 As there is a likelihood of Dr. Carver figuring rather prominently in sporting circles the near future, a few particulars of his career may be of interest. Born at Saratoga Springs, New York, in 1840, Dr. Carver spent much of his earlier life amongst the Indians. His father in 844 catching up the spirit of change as adventure which swept over America at that time, decided to, make his home in the Far West. Settling in the neighbourhood of St. Authory's Falls, where the city of Minneapolis now stands, the Carver family spout one short summer only, for adevastating blight-Bas destined | Amphell, Moore&Co. to full upon the unbappy family. In the September of 1845, the little humestead was raided by In. China Sugar ...... dians whilst the father had gone down the river | Chanese Loan '86 E. for winter supplies. Returning after three days" sbsence, the awelling house was found a more Dairy Farm Co. .... heap of ashes, and the bodies of his wife, his Fenwick & Co., Geo. mother, his little daughter, and his servants were a distance of five miles and the place to be a found charred and lifeless. But no signs of the H. 4. C. Bakery boy Frank now Dr. W. F. Carver) could be Hongkong & C. Gas. of people from the town, who were rewarded by found, for the Indians had carried him off. After Hongkong Electric... seeing the erection of an additional strow but; his capture by the Dakotas, Frank Carver was H. H. L. Tramways. taken a long way up the id innesota river to their Hongkong Ice....... men of the place offering ten dollars to one to village, where the Indians made him the butt of. H. & K. Wharf & G. buy in the property. This kind offer was of their savage fury, and no less savage mirth. At Hongkong Rope..... course promptly declined. What a long step in last he attracted the attention of a young chief H. & W. Dock...... the right direction would be the conversion to | named Red Wing and he being pleased with the Hotelslong sunny hair and manly bearing of the little henesty and fair dealing of the heads of this stranger, took him to bi . own village lodge, where be was carred for in Indian fashion, and was not unkindly treated. There he played with the dasky children, and soun developed such strength and vigour that made the younger savages look up to him with as much reverence as did the older ones in after years. Before he was nine years old he became an expert marksman. He could shoot an arrow with the most skilful brave. During the past few years bookey appears to and handle a rifle with an extraordinary amount

A RESTLESS CAREER. the day may yet arrive when hockey players! Soon after this he exchanged his rifle for one will be able to seriously dispute pride of place of a superior make. He became almost a in public estimation with the exponents of thorough savage and has drelated that he had no "Socker" and "Rugger." To my mind such desire to have the Dakotas. For sixteen long a time is not yet within measurable distance. years he remained with them, and his reputaout the progress of bookey is beyond all dispute. Tion as a dead shot spread amongst the trap-Only the other day an international hockey pers. At last one Sweely got him to go to the match was prominently recorded in most of our Mississippi to shoot matches with the Whites. public prints. From an old number of "The He competed at different places along the Mag. sine of Sport"-a journal new unbappily | tiver, creating great astonishment, and finally defunct-I have been enabled to pick up some landing at the little town of Winslow, Illinois very interesting information concerning the There he attended school for four years, in the game. The origin of hockey as a game in meantime learning his profession-dentistry-England, I learn, seems to have been a develop- and astonishing everybody with the wonderful ment of ruder sports dating as far back as the progress of one so long not sught. Eventually, Roman invasion in B.C. 55. Harling gas a very a civilized life disagreed with him, He became Counties of England being famous for their skill began killing buffaloes for the market. He is Patus (Old) at this particular game. Both in this part of credited with killing more buffalose than any Benares (New) ..........\$715 it was nothing at all unusual for whole parishes - | when in company with Charles. Bruster, up the sometimes two, three, or more-to contend Republican River, Carver killed sixty-two against each other the playing piece or field buffaloes at one run, and in this brip in fiv. of action extending over several miles, with days' shooting he killed altogether 315, often no limit as to the number of players on a killing thirty five and forty at one run side. "Hurling to the goals," a game from Some time before this though. Carver which present-day hockey probably originated, became intimate with Buffulo Bill, the famous was frequently played in the latter part of trapper and guide, whose visits to England the last century, a kind of but flat on will be fresh in the minds of everyone. The both sides being used to catch and toss the Sions and other Indiana were troublesome, and ball. There would seem to be some slight simi- together they had many savage skirmishes. The larity, too, about this game and the Indian game Indians styled him "Evil Spirit," on account of of lacrosse, for players would catch the ball on his marvellous shooting. His title of Doctor is Nagasaki their bat-which curved at the lower and and not supported by any diplome of D.D., M.D., or Shaughal. run with it a considerable time, occasionally toss- L.L.D., but was conferred by the Indian enemies Focchow ing it into the air and recovering it again most of the bioux, who, on account of his deadly rifle, skilfully. "Passing "was, of course, resorted to. named him " The Great Bad Medicine Man."

BOME OF HIS WONDER: FUL YEATS. After andeavouring, to master the dental promention is made of a "clube" or "hurl bat," the fession, he again relapsed into his old habits, game of hurling being played before Her Ma-icety when on a right to Kanilworth Castle in the 16th century. Yet another form of bookey was rifle. While on the plains he made a bet that Haiphong the Scotch game of "shinty," which can be traced be would kill five plovers on the wing out of Bolinso to the earlier part of the present century. Of twelve, whilst riding a horse at full gallon. He twelve, whilst riding a horse at full gallop. He zhot ten out of the twelve, the shooting being from the shoulder. When in San Francisco be was matched to shoot glass balls with Captain they call 'shinty.' This sport which bears con Bogardus, the latter to use a double-barrelled shot gun, and the doctor a rifle: There were | Shanghai bard ball, which is generally made of wood, and other throngs in all Each won one; and the each player is furnished with a curved stick some be beat John Ruth by breaking 885 glass balls what resembling that used by golf players, and out of a thousand. All sorts of feats were say out of a thousand. All sorts of feats were no the object of each party of players is to send complished by him with the greatest certainty. Small silver coins thrown in the air were re. Victoria Peak. pentedly hit by bullets, and he could easily shatter From the foregoing it would appear that a ball thrown straight at his head by a man Hollow teenth century off-cted the games and pastimes at Brooklyn Park, Dr. Carrer undertook the Moderate N.H. winds; fair. of the United Kingdom beyond measure, and astounding feat of breaking 5,500 glass balls hockey was comparatively unheard of for some in less than eight hours. He began shooting years. But when quietale came again, we hear of at one minute past eleven in the morning. the game being revived at titon, and from here it and fired the last shot 104 minutes past seven spread from school to school with astobishing in the evening, which gave him a margin of 414 rapidity. Not only did the public schools take it minutes, including a recess of 32 minutes. When Compensaries up, but its popularity spread through every ath: it is said that he had 23 barrels of Payne's fealet o circle, the activity, dash and bustle making thered balls at his side, six rifles on the table Direction of wind ... W.S.W. it essentially a winter pastime. In and ground behind him, and seven as intants, the magnitude Ecros................ London clubs apring up on every hand, whilst of the task can be guessed. Dr. Carver suffered I rkshire and Lancasbire were in no way behind- terribly after the feat. He was quite blind, and hend in the revival of the game. But, like other, after two or three days was unable to see Tile

Combiless most important positions for law unto itself. Somewhere about 1884 a few of 5,500 it will be found that he raised a 101b, rifle Massus. 1895. With which is incorporated THE CHINA DIRECTORY.

This is the HIRTY-THIRD/ANNUAL ISSUE, LONDON, NEW YORK, BOSTON, BAL. on preceding years both in fulness and accuracy and will be found, as wenal, to show an advance The DIRECTORY covers the whole of the ports and cities of the Far East, from Penang to Vladivostock, in which Europeaus reside. Not only is the Directory as full and complete

in each case as it can be made, but each Colony, Port, or Settlement is prefaced by a DESCRIP-TION, carefully revised each year, most of which will serve as accurate Guides for the Tourist, giving every detail in connection with the places, their History, Topography, &c., &c. The Information afforded in these Descriptions alone would suffice to fill an ordinary volume, consisting of over NINETY highly interesting

articles, packed with facts concisely set out, and containing statistics of the TRADE of each Country and Port. The work contains Directories and Descrip-
